

Streamlining Payroll For The Hospitality Industry

Fast & Accurate Payroll Processing

Finding ways to increase payroll accuracy and efficiency just makes sense. That's why we developed POSConnect! This innovative solution allows you to seamlessly connect your point-of-sale (POS) system with your payroll module.

By streamlining the flow of payroll detail to your payroll system, POSConnect saves valuable time and money. As a result, you can focus on the the things that matter most...like your customers, employees and business!

POSConnect simplifies the payroll process by integrating with leading POS and payroll solutions, such as **Ordermatic**, **Automatic Data Processing (ADP)** and **Paycor**. In addition, the application offers unique tools that can help you manage employee information. For instance:

Detailed payroll data reports can identify:

- Employees who have worked in multiple stores
- Employees with more than one master record in the POS system
- Employees who are missing master data in the POS system
- Or, employees without POS data

And, editing features allow you to revise important payroll details like regular, overtime and vacation hours, tips, charges and temporary departments prior to processing.

What are you waiting for? Contact Points North today at **888.561.2072** to learn how you can benefit from this popular solution!
